

The Chemical Biology Seminar Series Presents:

"Characterization of natural colibactin-nucleobase adducts by tandem MS and isotopic labeling."

Speaker: Mengzhao Xue
Herzon Lab
Dept. of Chemistry

"Exploiting Cell-Permeant Miniature Proteins for Delivery of Therapeutic Targets."

Speaker: Susan Knox
Schepartz Lab
Dept. of Chemistry

Hosted by: Sebastian Santiago

**Sloane Physics Lab 59
Friday
October 5, 2018**

11:45 - Pizza and Soda

12:00 – Seminar
