

The Chemical Biology Seminar Series Presents:

"Autoimmune drug metabolism in a bacterial pathogen regulates phenotypes associated with clinical efficacy."

Speaker: Tyler Goddard
Crawford Lab
Dept. of Chemistry

"Investigating Plant Secondary Metabolism through Synthetic and Chemical Biology."

Speaker: Jaymin Patel
Isaacs Lab
Dept. of MCDB

Hosted by: Daniel Dumitrescu

Seminar is mandatory for all current CBI Students

**Sloane Physics Lab 57
Friday
November 2, 2018**

11:45 - Pizza and Soda

12:00 – Seminar
