

**The Chemical Biology Seminar Series Presents:**

***"Targeted genome editing at repetitive genetic elements using filtered MAGE."***

Speaker: Felix Radford  
Isaacs Lab  
Dept. of MCDB

---

**"Chiral Inversion of Amino Acids in Anti-Parallel Beta-Sheets at Interfaces Probed by Sum Frequency Generation Spectroscopy."**

Speaker: Ethan Perets  
Yan Lab  
Dept. of Chemistry

---

Hosted by: Michelle Moon

---

**Seminar is mandatory for all current CBI Students**

**Chemistry Research Building 123**

**Friday**

**December 7, 2018**

**11:45 - Pizza and Soda**

**12:00 – Seminar**
